SEALSHIPT OYSTERS TO-DAY

Sowden & Lyon's

Yes, they have arrived. They're in a case of pure white enamel, smooth, clean and wholesome, imbedded in ice in a Sealshipt container.

When we opened the case a delightful, appetizing aroma arose, and we saw a solid mass of just about the best looking oysters we've ever seen--no water in them. A taste of one left only one desire--and that was for another.

There's really no further need of sending to Boston for oysters in the shell when Sealshipt oysters such as these are obtainable. The tempting, pungent "half-shell" flavor of Sealshipt does away with the desire for any but Sealshipt.

A pint of these solid meats will go almost as far as a quart of half water tub oysters. Therefore, the price of 25c a pint is not high.

Come in and see them, or look in our window at the display there. Tell our clerk to bring you some. Phone for some, we'll deliver them. Fresh daily. No preservatives.

Tel. 217-3. USE IT.

The wise folks who live in the West, Buy genuine Round Oaks with a zest. They know what they are about. This stove never wears out. And so helps to "feather their nest."

We cannot afford to sell inferior stoves. How long would we last if we sold the cheapest stoves we could buy? We are not in business for our health, nor for one season alone. We are here to progress by legitimate merchandising. We must sell you good reliable goods at reasonable prices in order to continue to hold our head up--look you in the face, and trade with you, again and again.

We know that every genuine Round Oak heating stove we sell will give such good satisfaction that we will be able to keep the trade of the purchaser in other things. We know it's a good stove--that it is worth the money we ask for it--that it is far cheaper in a short time than the lowest priced stove made.

If interested come in--stir us up on the subject. There's more to say.

There is but one **ROUND OAK**. Look for that name.
